

Your Center for Skill Enhancement

Introduction:

Your Center for Skill Enhancement is an advanced online platform developed to empower learners, educators, and administrators across various domains. This center focuses on promoting skill development with a special emphasis on career-oriented learning and professional training.

It supports multiple roles including teachers, students, and admins. With intuitive tools for course creation, interactive learning environments, and robust management capabilities, it aims to deliver a complete e-learning solution.

Objectives:

- Deliver high-quality online education through structured courses.
- Enable educators to design and manage digital courses.
- Help learners gain industry-relevant skills at their own pace.
- Ensure effective platform governance through admin oversight.
- Offer certification upon course completion to validate skills.

User Roles & Responsibilities:

Teacher:

- Add new courses for students.
- Add sections/modules to each course.
- Delete courses (if no student is enrolled or for valid reasons).
- Update course information (title, content, pricing, etc.).

Student:

- Enroll in one or multiple courses (free or paid).
- Purchase paid courses before accessing them.

- Resume courses from where they left off.
- Filter/search courses by name, category, and other filters.
- Download a certificate of completion after finishing a course.

Admin:

- Manage (create/update/delete) any course.
- View and monitor all users (teachers and students).
- View enrollment records of all students.
- Manage user accounts (activate, suspend, or delete if needed).
- Generate reports and analytics related to user activity and course engagement.

Key Features:

- Interactive course creation and sectioning tools.
- Dynamic course marketplace with filters and search.
- Student progress tracking and resume capability.
- Secure payment for accessing premium content.
- Auto-generated certificates after course completion.
- Real-time admin dashboards and analytics.

2/3

Application Flow Overview:

1. Users sign up and are assigned roles (Admin, Teacher, or Student).
2. Teachers create courses and add sections/modules.
3. Students browse, filter, and enroll in courses (free or paid).
4. Students progress through courses and resume when needed.
5. Certificates are generated upon successful completion.
6. Admins manage users, monitor activity, and modify course content.

Conclusion:

Your Center for Skill Enhancement is a complete digital learning ecosystem that brings together

learners, educators, and administrators. With a strong focus on practical learning outcomes, it aims to build a workforce that is ready for industry challenges.
